

# Product Data Sheet

MotorSilk® MSAT  
Automatic Transmission Fluid

## TREATMENT FOR AUTOMATIC TRANSMISSION

**MotorSilk® Automatic Transmission Fluid (MSAT)** is an additive designed to extend the life and lower the operating temperature of your automatic transmission, blends with your existing transmission fluid and contains boron-based components that protect vital working parts from friction and corrosive elements. It toughens rotating components, inhibits overheating, smoothes out clutch shudder, clears stuck valve bodies and locked governors, and improves shift patterns.

## USAGE

**MotorSilk® Automatic Transmission Fluid** can be used in any automatic transmission, when added in a 1:33 ratio (about 30ml of automatic transmission treatment per litre).

## APPLICATIONS

Automotive and light duty truck automatic transmissions

## SPECIFICATIONS

Color..... Translucent Tan  
Base Fluid..... Full Synthetic  
Viscosity..... 20 W 50  
Flash point..... 180°C  
Solids..... Boron Variants  
D.O.T..... Unregulated  
V.O.C..... None  
Biodegradable..... Yes

## PACKAGING

Bottle..... 16 oz / 473 ml  
Pail..... 35 lb / 16.6 litre  
Drum..... 400 lb / 189.3 litre  
Tote..... 2000 lb / 946.0 litre
